Since 1988

# OUR STORY

---

A typical Italian story, handed down from generation to generation, beginning in **1988** when Francesco Monte and his son Davide, the current CEO, decided to break away from the historic family pasta-making business to found their own pesto and sauce company. It was the beginning of a successful business during an historical moment in which entrepreneurship and desire to grow and improve were rewarded with great satisfaction.

In **1992**, the company, having grown and developed, moved its headquarters to the current facility in Piasco, in the Province of Cuneo, just a few kilometres from Langhe, Roero and Monferrato, a geographical area that has recently become part of the UNESCO World Heritage.

The years from **1995** to **2008** were years of consolidation on the national market. Highly selected raw materials and production processes that fully respect the quality of authentic Italian tradition allowed the company to bring the products to all major supermarket chains and to serve the table of Italian families.

In **2009**, the company set out to conquer foreign markets with a new international and export-oriented vision. Exports now account for 50% of company's global turnover. A result that is representative of the efficiency that company can guarantee to customers.

**2020** saw the start of the expansion of the production facility, allowing the consolidation as a true Italian excellence in the production of condiments for pasta dishes in Italy and throughout the world.

# WHO WE ARE & WHAT WE DO

Passion for Italian specialities and the pursuit of the highest quality are essential components for a range of products that are ready to satisfy the most demanding customers and palates.

An ever-evolving range that leads to the discovery of recipes from Italy's rich gastronomic tradition. Over the years, the company has been able to maintain the values of tradition and the typically Italian "bel vivere" ("good living"). All this while maintaining the values of tradition and the typical Italian "bel vivere", without renouncing a global vision, developing year after year an advanced production organisation, cutting-edge logistics and prompt customer service that make the company a solid and reliable partner.

It is also an element of pride the distribution of fresh products in the biggest Italian supermarket chain under "Freschi di Natura" and "Sempre Freschi" brands, that are the everyday protagonists on the tables of many Italian families. Indeed, the fresh products are the real core business of the company.

The company has a presence in the major international markets with a widespread distribution of both dry and fresh products throughout Europe. The company is also active in the major long-haul markets with a presence in countries such as Australia, Brazil, Canada, China, South Korea, United Arab Emirates, Japan, Indonesia, Kuwait, Lebanon, Macedonia, Mexico, Russia and the USA.

# QUALITY BY TRADITION

The most important ingredients are Quality and Tradition. The company also has the two major certifications in the food world: IFS and BRC.

Attention to customer preferences have also led the company to invest heavily in organic products, which have been certified, since 2011, by the ICEA Piedmont control body.

The company is also fully registered with the US FDA.

The taste experience that the products convey is recognized and appreciated by all our customers who, day after day, renew their trust in the company.

Choosing Nord Salse's products means believing in an idea of business. It means believing in a company that puts heart and soul into what it does. It means choosing the quality that comes from experience.

# GENOVESE PESTO

## PRODUCT DESCRIPTION

This Genovese pesto is prepared exclusively with Italian basil. The Monti branded recipe is the one that is most appreciated in foreign markets, thanks to the masterful balance of its main ingredients (olive oil, basil, cheese and pine nuts), which are combined to perfection to create a recipe with a full-bodied consistency, perfect both as a condiment for pasta dishes and as a spreadable sauce. The range includes glass jars, a PET jar (330g) and a PP jar (900g). The polypropylene (PP) jar guarantees excellent product conservation, and is especially practical for use during the service of professional restaurant, canteen and hotel kitchens. The protective film over the mouth of the jar guarantees its total safety.

# RED PESTO

## PRODUCT DESCRIPTION

This Monti branded red pesto is the brother of the classic Genoese pesto. It's a recipe prepared with Italian basil, sunflower seed oil and sun-dried tomatoes. The use of sun-dried tomatoes gives it an intense red colour and flavour making it particularly suitable not only as a sauce for pasta and gnocchi, but also for spreading on toasts. The range includes glass jars and a PP jar (900g). The polypropylene (PP) jar guarantees excellent product conservation, and is especially practical for use during the service of professional restaurant, canteen and hotel kitchens. The protective film over the mouth of the jar guarantees its total safety.

The Nord Salse Food Service line was created to meet the demands of the food industry with a vast selection of pestos, sauces and creams.

It's an extremely versatile line, and the perfect solution for fillings, ready meals, fast and slow food, sandwiches, pizzas and any kind of creative product for both artisanal and industrial segments.

Large formats and carefully selected raw ingredients come together in products of the very highest quality. Our containers guarantee high hygiene standards in full compliance with the HACCP policies of our client companies.

Customization and flexibility in terms of minimum orders are one of the success factors of the Food Service line, whose other strengths include a team of professionals dedicated to creating recipes together with client companies in order to meet their specific needs.

# PRIVATE LABEL

---

The term private label refers to all products that carry the name of the distributor brand or distribution chain that sells them: this combination is usually a guarantee of high quality.

In this regard, Nord Salse can become the ideal partner for all those customers, distributors or importers, who decide to start a private label by placing their name on a product of certified quality, guaranteed by years and years of experience.

One of the main strengths that Nord Salse offers in its role as a partner is flexibility: we are able to respond efficiently to the different needs of the customer and of the market thanks to the wide variety of recipes and formats, which can also be customised in case of large quantities.

A brand that is about to be born needs a lot of attention and Nord Salse offer a service that is able to take care of every step: all the graphic design can be followed by our marketing department, the quality department will carry all the mandatory check and the labels' printing action is cared by a trusted printer.

**We will guide and advise you in choosing the very best sales strategy and we will always be by your side in this exciting business journey.**
